Universidad Tecnologica Nacional
2015 - 2016

ABOUT ME

I am an enthusiast of the development and design of applications. I have a lot of experience in the development world, mainly as a frontend in different types of applications.

I characterize myself as having a good eye for the visual and (I think) good taste in web design.

EXPERIENCIA LABORAL

Senior Front-End

AKQA

November 2023 - Now

I am part of an international team focused on designing and developing high-impact web experiences for one of the world's most renowned technology companies.

My role involves building global product landing pages, integrating advanced animations and microinteractions to deliver outstanding user experiences.

I work with a modern stack including React, TypeScript, and GraphQL, ensuring best practices in architecture, performance, and scalability for high-traffic environments.

Senior Front-End

Greelow

November 2023 - April 2025

Development of e-commerce applications using NextJS, Typescript, Tailwind, Storybook, GraphQL. making integrations with Headless CMS (Builder/Strapi/Contentful)

Creative Developer

HelloHello

August 2022 - October 2023

Application development in NextJS and Typescript with a strong visual and design focus.

Integration of applications with Prismic to make them self-manageable.

Implementation of animations and 3D modeling with GSAP and ThreeJS (React Three Fiber).

Some of the projects I worked on:

- <https://isabl.vercel.app/>
- <https://www.appiablo.com/>

Front-End Tech Lead

SMS South America

November 2021 - August 2022

Main developer and team leader made up of 4 developers.

Development of travel platform (Similar Booking) under scrum methodologies and using technologies like : SCSS - ReactJS - NodeJS - TypeScript

Semi-Senior Software Engineer

Santander Tecnología

April 2019 - November 2021

Development of digital platform for internal use of the bank through the use of JS frameworks/libraries (React and Node).

Participation of the entire development process, from the functional part to the technical, under the use of Agile methodologies (Scrum)

Software Developer

Gen-IT

June 2017 - May 2019

Frontend and Drupal specialist developer working on projects since its inception, in process and maintenance of current portals and systems.
